WELCOME ABOARD

As the Commander of the Robinson R44 helicopter I hope you thoroughly enjoy all the magnificent sights and natural beauty the city of Porto has to offer, in total comfort and safety.

An unforgettable experience awaits you during our flight through the skies of the “Unconquered City”. This trip will fly passengers over the most iconic areas of the city of Porto, which has maintained its unique and distinct identity over the years, and deserves the appreciation of everyone.

From the historic center of Porto, the oldest area in the city, listed by UNESCO in 1996 as a World Heritage Site, over the city’s famous monuments, including the 6 bridges connecting Porto to Vila Nova de Gaia, the Tower of the Clergymen, the House of Music, FC Porto’s Estádio do Dragão, in addition to other landmarks of the city - more specifically the River Douro and the Atlantic Ocean. Viewing all this from the sky will be a unique adventure.

You will have the opportunity to learn about some of the city’s history, as well as the local architecture and culture, while observing the ageless landmarks which make the city of Porto an increasingly popular travel destination.

I wish you all an amazing trip!

HISTORIC CITY TOUR

Duration 10 min | Price per flight

175€

In this route you will fly over the Douro River through the area of Ribeira and the Dom Luís bridge.

The flight will continue to FCP Football Stadium crossing the bank river to Gaia flying over the port wine cellars.
